The BEST and the BRIGHTEST
MADE IN THE USA

The new LightTracer and LightTracer 2 are banner products in our reshoring.

They are entirely US-made, assembled in our Minnesota factory, with parts made by other local Midwest companies. Not only is the quality higher, but the products' profile is ever more green and efficient. As well as unbeatable quality, shipping and availability will be more reliable than ever.

ARTOGRAPH®

One year warranty backed by Artograph's top-of-the-line lifetime technical support!

LightTracer LED Light Box

Features a 10 x 12 inch (254 x 305 mm) conveniently slanted lighted surface and handy recessed tool tray to keep pencils, chalk, embossing stylus, and other tracing tools at your fingertips. Now illuminated by maintenance-free, cool, bright LEDs with a sleek new design.

#225-365

LightTracer 2 LED Light Box

For larger, more complex projects, take advantage of the Light Tracer[®] 2, with a generous 12 x 18 inch (305 x 457 mm) conveniently slanted acrylic tracing surface and handy recessed tool tray to keep pencils, chalk, embossing stylus, and other tracing tools at your fingertips. Now illuminated by maintenance-free, cool, bright LEDs with a sleek new design.
