BEFORE YOU START

Confirm your parts list. Call 888.975.9555 if you find anything missing. Flatten carton lid to use as work surface to protect finish. Read all instructions carefully before proceeding.

PARTS INCLUDED

A 3 supports
B 2 front uprights 2 rear uprights
C 4 wheels
D 2 shelves 1 brace
E 32 bolts 32 lock nuts
F 2 tools flat wrench hex key

Y O U  C H O O S E !

1. Place 2 rear uprights (B) on the floor as shown inserting 10 bolts (E) through the holes in contact with the floor.
2. Place the Brace (D) over the 3rd and 4th bolts from the top. Hand tighten lock nuts. Please note: fasten lock nut with the plastic end facing out. Insert 2 additional bolts and nuts at sides holes and tighten using hex key and flat wrench.
3. Set top shelf/tray (furthest from wheel mounts) in place over bolts and insert 2 additional bolts at side locations. Hand tighten the nut over the bolt that is against the floor. Tighten the two side bolts using the wrench and key (F).
5. Attach second shelf over second set of bolts and hand tighten. Attach side supports as shown, attach bolts and tighten securely using hex key and flat wrench.

Tip: Once all bolts are attached; tap them to make sure they are tightened completely. Loose bolts will jingle.

6. Attach remaining two uprights (B) as shown. Insert bolts and tighten lock nuts securely.

7. Install all wheels (C) and tighten with provided wrench. It is recommended that locking wheels are mounted diagonally across from one another.

8. Carefully stand table upright with some assistance. Inspect and tighten all the bolts and nuts using the wrench and key. If cart does not roll smoothly, ensure caster brake is firmly in “OFF” position.

Enjoy your Open Studio Table!

CAUTION:
1. Do not allow children to move or play with cart.
2. Always push cart from narrow end.
3. Always push cart from middle shelf, not from top.
4. Always push the cart. Do not pull.
5. Move cart slowly.
6. Do not stand on cart or use as a ladder.
7. Weight limit 300 lbs. evenly distributed.
