**BEFORE YOU START**

Confirm your parts list. Call 888.975.9555 if you find anything missing. Flatten carton lid to use as work surface to protect finish. Read all instructions carefully before proceeding.

**PARTS INCLUDED**

- **A** 4 uprights
- **B** 24 bolts
- **C** 3 shelves
- **D** 4 wheels
- **E** 2 tools
  - flat wrench
  - hex key

**YOU CHOOSE!**

Place 2 uprights **(A)** on the floor as shown inserting 6 bolts **(B)** through the holes in contact with the floor.

Set top shelf/tray **(C)** (furthest from wheel mounts) in place over bolts and insert 2 additional bolts at side locations. Hand tighten the nut over the bolt that is against the floor. Please note: fasten nut with the plastic end facing out. Tighten the two side bolts using the wrench and key **(E)**.

Use allen key and flat wrench in combination to tighten securely.

Repeat same process for remaining two shelves/trays **(C)**.

Tip: Once all bolts are attached; tap them to make sure they are tightened completely. Loose bolts will jingle.

Attach remaining two uprights **(A)** as shown in previous steps.

Install all wheels **(D)** and tighten with provided wrench. It is recommended that locking wheels are mounted diagonally across from one another.

Stand cart upright. Inspect and tighten all the bolts and nuts using the wrench and key. If cart does not roll smoothly, ensure caster brake is firmly in “OFF” position.

Enjoy your Open Studio Taboret!

**CAUTION:**

1. Do not allow children to move or play with cart.
2. Always push cart from narrow end.
3. Always push cart from middle shelf, not from top.
4. Always push the cart. Do not pull.
5. Move cart slowly.
6. Do not stand on cart or use as a ladder.
7. Weight limit 300 lbs. evenly distributed.
